SAVUTE ELEPHANT CAMP, CHOBE NATIONAL PARK

Located in the heart of the Chobe National Park, often referred to as 'the elephant capital of the world'

Activities

As this camp is situated in the Chobe National Park, park regulations prohibit night drives and walking, however game viewing activities are offered in the morning and late afternoons in open 4x4 safari game viewing vehicles. In addition, all tents, public areas and the swimming pool overlook the adjacent water hole so it is not uncommon to see elephant and predator activity from the luxury of your own tent.
